Identity, colour and typography

This sheet condenses the production manual into the rules suppliers and staff need day to day. The full manual and the production register sit in `08_APPROVALS`.

Colour

Primary sage grey
#6E7F72 · RGB 110 127 114
Logo, headings, panels, uniforms

GBS red
#E10600 · RGB 225 6 0
Descriptor, icon highlight, CTAs

Light grey
#DADADA · RGB 218 218 218
Dividers, supporting graphics

Off-white
#F9F9F7 · RGB 249 249 247
Paper and page background

Working digital values, not certified spot inks: printers convert through their ICC profile and supply a drawdown for approval. Body text uses a deep sage (#4C5D50); charcoal grey is not part of the system. Red is an accent and never a background for body text.

Typography

Montserrat Bold · headings	**Maintaining exceptional spaces**
Montserrat Bold · descriptor	**PROPERTY MAINTENANCE**
Montserrat Medium · strapline	BUILD | MAINTAIN | IMPROVE
Inter Regular · body	Scheduled programmes that keep communal areas, external fabric and building services in good order. Numerals 0123456789 are tabular for prices, dates and references.
Inter SemiBold · labels	**Scope of Works · Remedial Works · Supply & Install · Job Report**

Context	Sizes
A4 brochure	H1 26-32 pt · H2 14-18 pt · body 9.5-11 pt · footnotes 7.5 pt minimum
Stationery	Letter body 10-11 pt · legal footer 7.5-9 pt
Website	Display 48-64 px desktop / 32-40 px mobile · H2 30-40 / 24-30 px · body 16-18 px

Logo masters

All masters are outlined vectors in `01_LOGO_MASTER/svg` with PNG exports in `01_LOGO_MASTER/png`. They are traced from the Horizon artwork supplied in October 2026 (`01_LOGO_MASTER/source`); the strip lockup sets the descriptor beside the wordmark for narrow bands. The visible logo never carries "Ltd"; the legal name appears in disclosures instead.

Primary with strapline · white / off-white grounds

Primary without strapline · stationery headers, chest prints

Reversed on solid sage (manual-approved)

Reversed, soft descriptor · small sizes on sage

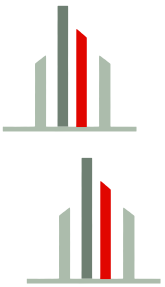

Single-ink sage · stamps, etching, one-colour print

Single-ink white · tonal garments, dark grounds

Strip · lanyards, pens, van rear, narrow bands

Horizon icon and simplified icon (embroidery, under 20 mm)

Minimum sizes

Primary lockup: 35 mm wide in print, 100 mm in embroidery, 140 px on screen. Drop the strapline below 60 mm / 300 px. Icon: 8 mm print, 20 mm embroidery (simplified version). Proof every first application physically.

Clear space, construction and misuse

Unit X is the cap height of the GBS letters. Keep at least 1X clear on every side. The proportions below are those of the supplied artwork and are not to be redrawn: four bars stand to the right of the S in three colours, the horizon line runs the full width of the lockup in light sage, the red descriptor sits below the line and the strapline below that.

Element	Construction (X = 100 units)
Letters	GBS, cap height 1X, sage (off-white when reversed)
Bars (left to right)	Light sage 0.16 × 1.03X · tall sage (off-white when reversed) 0.14 × 1.76X · red 0.155 × 1.43X · light sage 0.16 × 1.03X, all standing on the horizon line
Horizon line	Light sage #ACBCAC, 0.07X thick, full lockup width, 0.04X below the letter baseline
Descriptor	PROPERTY MAINTENANCE, red, cap height 0.27X, 0.13X below the line
Strapline	BUILD | MAINTAIN | IMPROVE, sage with red separators, cap height 0.14X, 0.2X below the descriptor

Do not

Stretch or condense

Rotate

Place on red or low-contrast grounds

Add shadows, gradients or effects

Recolour outside the approved set
